

Alliance Reunion

Personal photos - Recommendations

If you intend to contribute some of your Alliance reunion photos to the Alliance photos website, please consider the following suggestions.

Before arriving:

- Make sure your camera clock is set to the local time of the reunion location so photos from various participants will appear in the proper sequence
- If possible, set your camera to 3x2 format rather than 4x3 or 16x9
- Make sure the option Write date/time as a watermark on the photo is **disabled**

During the reunion:

- Shoot photos in landscape format rather than portrait, they fit nicely when displayed on a PC, tablet, or TV screen

After the reunion, before sending photos:

- Select your best photos, avoid blurred, unfocused, ill-framed photos, or photos not suitable for publication
- Send original full format photos in JPG or RAW format (resized photos or those sent from a mobile phone via MMS, WhatsApp or Wechat are too low in resolution for publication)
- Feel free to process or enhance the photos to your liking without reducing the initial resolution, but if not we will do it for you
- Preferably leave the photos filenames unchanged (camera sequence) or modify them to your liking

Shipping photos electronically:

- Pack all selected photos in a **single zip file**
- Send it using SMASH (WETRANSFER is no longer recommended for RGPD non-compliance reasons) to photos@allianceschlumberger.org, preferably before the end of the reunion or within 1 week thereafter. Sending them by email will not pass with too large a file
- A compilation of the best photos from all contributions will be published and your name mentioned as a contributor
- Please refer to the previous [reunions photos](#) (login to the ALLIANCE site required) to get a glimpse of what the end result will look like

Posting videos on the website:

Videos may not be posted directly on the Alliance photo website due to formatting and compatibility issues with all possible internet navigators, mobile phones and tablets. Using Youtube will avoid such issues and store the videos outside the Alliance website (which has limited storage capacity).

- Edit your reunion films to your liking and produce a video of no longer than 5' in duration
- If you add music, make sure it is exempt from intellectual property rights
- Post it on Youtube on a private channel, mark it as "unlisted" to ensure confidentiality
- Send the link to photos@allianceschlumberger.org for insertion on the photo website
